In the principal States the yield Estimated receipts for to-morrow: Wheat, will ve very heavy, and it is noticed that the few unfavorable returns are from points where only a moderate crop is expected. Despite the tardy arrival of warm weather, harvesting is under way at all Southern points, and another big yield is practically certain for Kansas. Oklahoma reports are cheering, most of the grain being cut, and a fair increase over the preceding crop is announced. Figures of acreage indicate that the total area under cultivation this year is somewhat smaller than in 1900, but the yield per acre will average much higher. Hessian fly caused injury in parts of Michigan, and sugar beet culture reduced the wheat acreage somewhat, but nevertheless there is expected a fair yield. Insects also caused some havoc in Kentucky, and both Tennessee and Texas suffered injury. With so much of the crop beyond danger and generally hopeful news from Northern points, it is safe to anticipate a yield fully No. 3 spring wheat, 62\frac{1}{2}@66\frac{1}{2}c; No. 2 red, 67@67\frac{1}{2}c. News from spring wheat sections is assuming a more cheerful tone. Instead of complaints as to drought, there is ample moisture and the crop progresses favorably. It is much too early to consider reports final, as serious disaster may yet be experienced, but with no better than average from now until harvest there is reason to expect a full yield of spring wheat, and the total of both winter and spring wheat should exceed all records with a production of 700,000,000 bushels or more.

Pingree and His Imitators.

Ex-Governor Pingree, of Michigan, wh died in London last week, was able, if eccentric. Politicians, like Jones, of Toledo, who talks about the Golden Rule and does nothing else, and Johnson, of Cleveland, who advocates 3-cent fares on street railroads in which he has no proprietary interest and sticks to 5 cents on his own roads, are imitators of his words but not of his actions. He gave Detroit, while he was mayor of that city, 3-cent car fares, cheap telephones and low prices for gas. This Socialist in embryo is as far ahead of his imitators as any man of action is ahead of mere men of words.

BRIEF SETBACK IN STOCKS ON FAIL-THE OF THE SEVENTH NATIONAL.

MILWAUKEE, June 27.—Barley dull; No. 2, Nearly All Issues Show a Late Recovery and Close Firm-Flurry in Call Loan Rate to 15 Per Cent.

> NEW YORK, June 27 .- There was quite a lively spilling out of stocks for a time today as a result of the suspension of the Seventh National Bank, one of the minor members of the Clearing-house Association, in consequence of action by the controller of the currency, but the market at no time approached anywhere near to demoralization. The drop in prices was, however, very general, and extended to over three

points in a number of the principal active stocks which have been recent favorites in the speculation. St. Paul, Union Pacific and Manhattan were the severest sufferers, and Missouri Pacific and Texas & Pacific also the day, however, witnessed a striking and general recovery, which practically wiped out the earlier losses and established considerable gains for some leading stocks. Union Pacific, St. Paul and Metropolitan Street-railway were the only stocks among the leaders which failed to benefit fully from the late recuperation. There was an opinion prevalent that some of the large financial interests were quietly taking advantage of the low level of prices to pick up stocks, without making any attempt to support prices. But this opinion is hardly consistent with the gingerly manner in which prices were bid up after the selling pressure had relaxed, with a palpable disinclination to secure stocks. The selling for London account, which was supposed to originate in Berlin, was a factor of considerable importance, which was probably not sufficiently allowed for in current estimates of the market. The reports of fur-ther banking troubles in Berlin did not seem to have any striking effect on sentiment here. The suspension of the Seventh National Bank came as a surpise, after the tiding over of its affairs which was effected yesterday and the day before, as it was generally supposed that friends of the bank would supply sufficient resources to carry it through. The worst effects of the embar- week show an increase of about 500 over ST. There were also a larger 66.5 made of the bank's affairs and of the character of the securities which had involved it in its difficulties served to give some confidence that the trouble was localized, as those securities were not dealt in on the exchange and are not widely distributed. The incident was found, nevertheless, to create an unpleasant impression and served to intensify the pinch in the money market incident to the turn of the half year. There was a considerable shifting of loans, partly in preparation for next week's dividend disfirm at the late recovery.

bursements and partly on account of throwing out of unsatisfactory collateral for call loans. The call loan rate ran up to 15 per cent. The market closed dull but There was some selling of railroad bonds in sympathy with stocks, but other mortgage issues advanced. Total sales, at par value, were \$2,025,000. Combined receipts of hogs for four days show a decrease of fully 4,000, compared with the same time last week. The receipts to-day were small, being oved 1,000 less than a week ago. On account of the light supply, and in harmony with encouraging reports from outside markets, salesmen were asking an advance in prices over yesterday. Packers naturally protested against the advance, but fortunately the shipping demand was again very good, and almost from the start the offerings were changing hands promptly at better figures. Generally the market was fully 5c higher, which left values practically in the same position that they were last Tuesday. A good clearance was made early and the last sales were steady at the advance. Prices ranged from \$5.971/2@6.20, and a very large proportion of the supply sold above \$6.021/2.

DRY GOODS MORE ACTIVE SMALL FRACTION ADDED TO THE

PRICE-IN STANDARD LINES. Rise Expected Soon in Leather and

Hides-Activity on Commission Row

-Very Light Grain Receipts.

After months of dullness and low range of prices in the dry goods market, a reaction set in and cotton goods of all descriptions are higher. Bleached and brown muslins, all along the line, were advanced 4c, and one of the oldest dealers on the wholesale street said that within the last few days there had been a remarkable improvement in the dry goods trade. He attributes the greater activity to the higher prices paid for cotton, which means higher prices for the manufactured goods, and retail merchants who watch the market closely such lines. The firmness, however, extends to all lines of dry goods and further advances are in prospect. The leather market is increasing daily in activity. Prices are hardening, and while no advances were established yesterday, there is a stronger tone to the market and an advance of anseveral descriptions of leather, is probable. Much the same conditions exist in the hide market, it being more active than at any time in months past, and while no advance was made yesterday one of the largest dealers said that next week hides probably would advance another quarter of a cent. strong, but no one seems to be able to give an opinion as to the future of the market. calfskin, 90c@\$1.10; French calfskin, \$1.20@1.85. On Commission row the supply of fruits and vegetables is large, with no important changes in values. Choice butter sells readily. The quantity arriving is large and considerable is going into storage. Cheese is a free mover and the market firm as to prices. Fresh eggs are not very plentiful, receipts being light for the time of the year, while the demand is large; consequently, prices are quite firm. There is nothing new of interest in the poultry market. Old chickens are scarce, but are not wanted in large quantities. Spring chickens

are selling at the prices which have ruled for several days. The local grain market presents no new features, receipts being the lightest of any June in many years. Track bids, yesterday, as reported by the secretary of the Board of Trade, ruled as follows, all cereals being in good request:
